HANDY HINTS

- 1) **Top up more at once** - make sure you put enough on for the whole day, this means you won't have to pop back every time you use it all up. You can ALWAYS swing by for a refund. Refunds are also available post event.
- 2) **Record your chip number** - if you manage to lose your wristband we will need this number to trace it
- 3) **Apply for your refund online already-** Sometimes that post event refund cut off can creep up on you. Best bet is to jump online www.awop.co.nz/refunds and lodge your refund application as soon as you have your chip number. Its a quick form and it means your application will already be lodged for any money to come back to you. You can do this before you have even used your wristband. If you decide to get it onsite instead, that's ok too.
